It requires, as of July 26, 2009, that additional steps be taken regarding concussions in private nonprofit youth athletic programs using school district facilities, furthermore any facility used for athletic programs. This bill requires training and documentation which AAU Member Clubs must adhere to. RCW 28A.600, otherwise known as Sudden Cardiac Arrest Awareness legislation requires that all coaches complete an online course to familiarize themselves with the six warning symptoms and the 3 steps that must be taken immediately to save a life.

1. All AAU member coaches will have to take training on the nature and risk of concussions and head injury including continuing to play after a concussion or head injury. All AAU member coaches must also complete Sudden Cardiac Arrest Awareness training as well. They will be required to sign waivers that pertain to both Concussion and Sudden Cardiac Awareness for each event the teams participate in.
2. On a yearly basis, a Concussion and Head Injury Waiver, as well as a Sudden Cardiac Awareness Waiver shall be provided to the youth athlete and athlete's parents/guardians prior to the youth athlete's initiating practice or competition.
3. All athletes suspected of suffering a concussion or brain injury will be removed from practice or competition and will not be allowed to return to play until cleared in writing by a licensed health care provider trained in the evaluation and management of concussions (Medical Doctors, Doctor of Osteopathy, Advanced Registered Nurse Practitioner, Physicians Assistants, and *Certified* Athletic Trainers).
4. If a player is suspected of suffering Sudden Cardiac Arrest – call 911 – and follow the instructions as presented in the training. All athletes suspected of Sudden Cardiac Arrest, must be cleared by a health care provider – such as a physician, physician assistant, advanced practice nurse or cardiologist.
